Networking solutions

PowerNet Systems offer comprehensive network Design, Installation, and Optimization services for your Local Area Network (LAN), Wide Area Network (WAN), Servers, Workstations, Cabling, Voice/VoIP, Data, and Video systems.

PowerNet Systems will design, deploy, maintain, manage and secure large- and small-scale public and private networks, providing scalable integration and support solutions to network owners that are cost effective.

PABX/PBX Telephone Systems

PowerNet Systems provides your enterprise with a flexible, powerful and advanced phone system with features that will streamline your business communication, improve your customer relations, control communication expenses and above all increase business productivity.

PowerNet Systems provides installations, upgrades and maintenance services for PABX/PBX Telephony and PABX/PBX phone systems using VOIP. We also offer products, such as PABX/PBX Telephone Systems, PABX/PBX Phones, VoIP Gateways, and Memory Cards.

Software Solutions

PowerNet Systems offer complete end-to-end software solutions in the most advanced technology using the latest industry standard tools. We build both application based solutions and web based solutions. Our website and web- interface designs focus on user-friendliness, a professional and attractive appearance, and are built with your business goals in mind. We have a dedicated team of consultants for the business solutions, to make better strategic decision, by addressing IT concerns and translating general and technical observations into specific recommendations for the business, thereby adding value and charting a proper return on investment.

Web Development

PowerNetuae makes use of the latest in open source software solutions which enable our clients easily manage and update their web sites with unwanted complications or outside help, though we are there at their call end always. We develop websites in such a way that maintaining and projecting the site from the simple basic Home page to the highly complex full-blow booking engines become so easy to carry on its own. Our case studies show that most our clients manage their websites without any prior knowledge in the IT field. PowerNetuae tailor comprehensive packages in the simplest available form so that the clients and customers wield the web management with ease.
