

SOLUTIONS THAT CONNECT SUPPORT THAT LASTS

About Us

Powernet UAE is a leading provider of integrated solutions in the fields of electromechanical engineering, maintenance, IT services, and systems. PowerNet UAE is a trusted provider of comprehensive electromechanical solutions, maintenance services, system integration, and supply chain management. With a strong emphasis on quality, reliability, and efficiency, we deliver innovative services and products designed to meet the diverse needs of our clients across a variety of industries.

Our electromechanical expertise spans the design, installation, and maintenance of complex systems, ensuring seamless operation of both electrical and mechanical components. Whether you're working in manufacturing, energy, or infrastructure, we provide specialized solutions that enhance system performance and operational efficiency.

In the realm of maintenance, we offer preventative, corrective, and emergency services to keep your equipment and systems running smoothly. Our dedicated team ensures that any issues are quickly addressed to minimize downtime and extend the lifespan of your assets, offering you peace of mind and consistent performance.

Our systems integration services bring together advanced technology, hardware, and software into a unified, high-performance framework tailored to your specific needs. We provide seamless solutions that enhance operational efficiency, from automation and control systems to enterprise-level solutions.

Additionally, we excel in supply services, offering a wide range of high-quality components and equipment for electromechanical systems, ensuring that you always have the right products when you need them. Whether you're looking for individual parts or complete systems, we source and supply the best products from trusted manufacturers.

VISION

At PowerNet UAE, we are committed to providing solutions that drive success through expertise, dedication, and customer-centered service. Our holistic approach ensures that we not only meet but exceed your expectations in delivering reliable, effective, and tailored solutions for your business.

Electronic Components Repair

Powernet offers a comprehensive range of high-quality electronic components designed for professionals and hobbyists alike. From resistors and capacitors to sensors and microcontrollers, our reliable products are built to support projects of all scales. Backed by fast delivery, expert assistance, and competitive pricing, we ensure your ideas take shape seamlessly. Trust Powernet for quality and innovation in every component.

We are connected with all components

Integrated Circuits -

Touch screen Controllers, ADCs, DACs, Microcontrollers, Amplifiers, AC-DC.

Passive Electronic Components -

RFI Components ,Capacitors, Ceramic Filters , Variable Inductors

Optoelectronic Devices -

Display Modules ,LEDs, Electric Lamp Components.

Circuit protection devices - Circuit Breakers, fuse holder

Electronic Instruments Supply

We provide a wide range of high-quality electronic instruments designed for professionals across diverse industries. Our selection includes oscilloscopes, multimeters, signal generators, and power supplies, all engineered to deliver precise measurements and dependable performance. Partnering with trusted brands and offering competitive pricing, we ensure you have the perfect tools for every project.

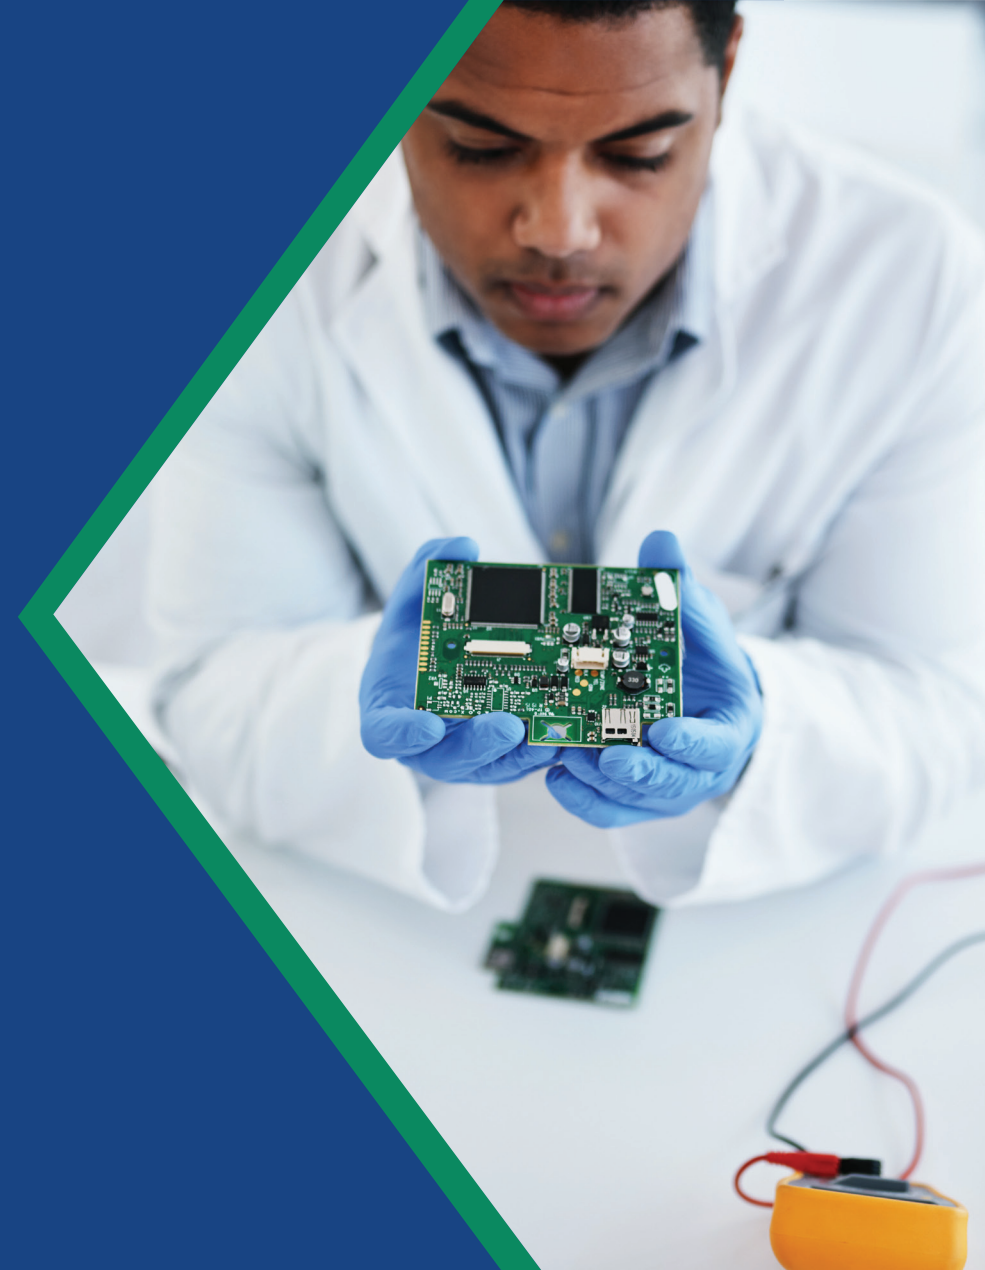

We specialize in a comprehensive array of sensors

- Flow
- Gas
- Magnetic Field
- Motion
- Position
- Pressure
- Temperature
- Humidity Sensors

Motors Repair and Supply

Powernet delivers cutting-edge drives and control systems tailored to enhance performance and efficiency in industrial operations. Our offerings include variable frequency drives, servo motors, and controllers, providing precise control and seamless integration. Prioritizing reliability and energy efficiency, our solutions are designed to boost productivity while minimizing operational costs.

We provide a comprehensive range of high-efficiency motors and generators for various applications. Our high-performance inverters ensure smooth, automated control of motors in AC Drive/VFD applications, delivering consistent and reliable results for your industrial needs.

Air Compressor Repair and Maintenance

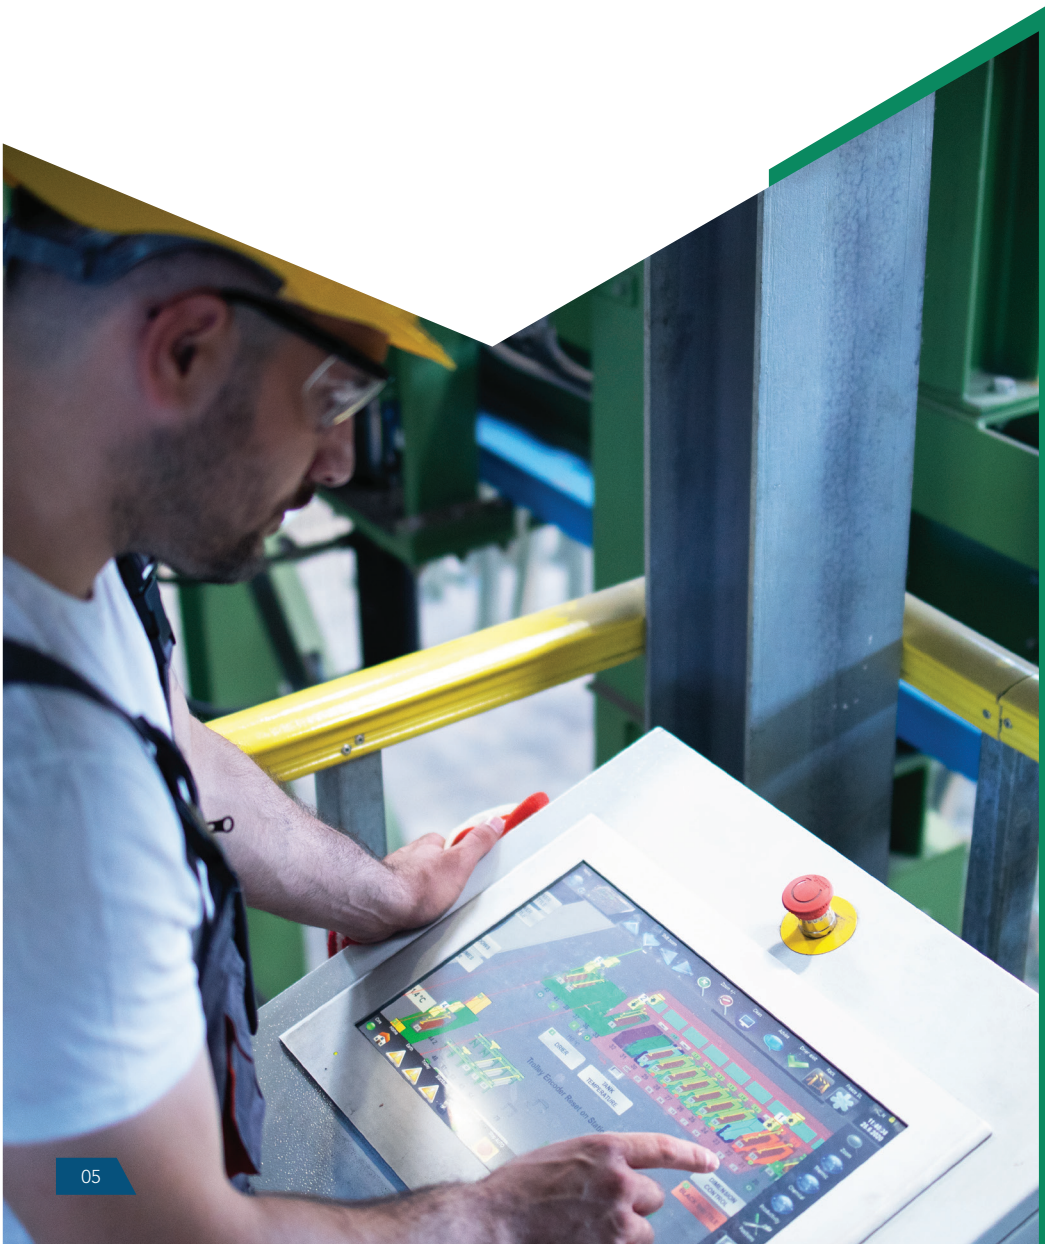

Our compressor repair and maintenance services are designed to keep your systems operating efficiently and reliably. From industrial compressors to HVAC units, our skilled technicians specialize in diagnosing and resolving issues with precision. We provide timely repairs, routine maintenance, and performance optimization to extend the lifespan of your equipment. With expert service and fast turnaround, we ensure your compressors perform at their best.

We offer specialized repair services for compressor control panels, addressing issues to ensure precise and efficient system operation. We also supply a comprehensive range of air components, including control panels, pressure control solenoids and electric switches,

Generator Repair and Maintenance

Our generator repair and maintenance services are designed to keep your backup power systems dependable and ready when you need them. We specialize in ensuring all types of generators—diesel, gas-powered, and more—operate efficiently and reliably. Our expert technicians conduct thorough inspections, troubleshoot issues, and perform necessary repairs to extend the life of your equipment. With timely service and skilled workmanship, we help you avoid downtime and maintain consistent power performance.

We also offer complete generator maintenance solutions, including oil changes, filter replacements, and system testing, to maximize reliability and efficiency.

Industrial Computers and Accessories

Computers

We provide a comprehensive range of industrial computers and accessories built to perform in demanding environments. Our offerings include rugged desktops, servers, and specialized components such as touchscreens, keyboards, and mounting solutions, all designed for reliability and durability. Equipped with advanced technology, our systems are ideal for automation, control, and monitoring tasks, ensuring seamless and efficient operations. Count on us for dependable solutions tailored to meet your industrial computing requirements.

Mobiles

Our explosion-proof mobile devices are engineered for reliable communication in hazardous environments, prioritizing safety and efficiency. Built to meet strict industry standards, these rugged phones and tablets are perfect for the oil, gas, mining, and chemical industries. Featuring durable protective enclosures and advanced functionalities, they ensure dependable performance even in extreme conditions. Count on our explosion-proof mobiles to keep your team connected and secure in challenging work environments.

Lights

Our explosion-proof lights are expertly designed to provide safe, reliable illumination in hazardous environments, including the oil, gas, and chemical industries. Engineered to withstand extreme conditions, these lights are certified for use in explosive atmospheres, ensuring both safety and performance. With durable, energy-efficient construction, they deliver long-lasting lighting solutions while minimizing the risk of accidents. Depend on our explosion-proof lighting to ensure optimal visibility and safety in your high-risk work areas.

AC

Our explosion-proof air conditioners are specially designed to deliver safe and reliable cooling in hazardous environments, including the oil, gas, and chemical industries. Certified for protection against explosive atmospheres, these units maintain a controlled temperature while minimizing safety risks. Engineered for durability and efficiency, they provide optimal performance even in the harshest conditions. Rely on our explosion-proof ACs to keep your equipment and personnel safe, cool, and comfortable in high-risk areas.

Power Supplies and UPS

Our power supplies and UPS systems are designed to deliver dependable, uninterrupted power, protecting your equipment and operations from fluctuations, surges, and outages. Built for efficiency and durability, our high-quality solutions ensure seamless performance and business continuity, even during unexpected power disruptions.

We provide expert repair services for power supplies and UPS systems, ensuring your critical equipment remains operational. Our skilled technicians quickly diagnose and resolve issues, minimizing downtime and restoring reliable power backup. With prompt and professional service, we help extend the lifespan of your power systems, keeping your operations running smoothly and efficiently.

PowerNet Electromechanical

PowerNet Systems

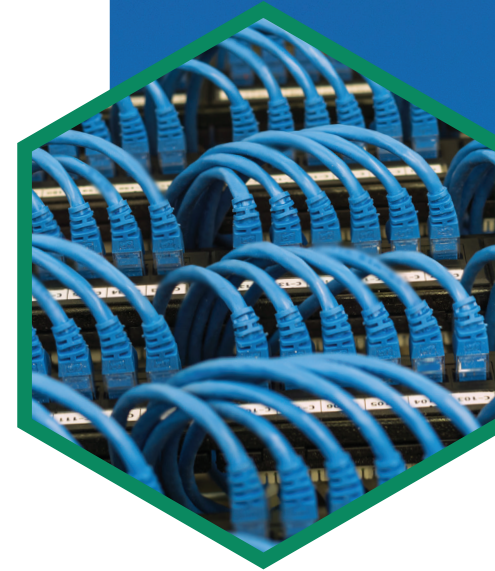

PowerNet Systems helps companies align Information Technology with their organizational goals and business objectives, while ensuring enhanced operational efficiency, greater flexibility and substantial cost savings. Our goal is to maintain and grow a culture of IT engineering and customer service excellence through a continuous process improvement program.

Structured Cabling

PowerNet Systems design and build cabling infrastructure systems for business computer networks, data centres, VoIP phone systems, and telecommunication companies throughout the United Arab Emirates. PowerNet Systems works with clients, right from initial consultancy and design to installation and maintenance of complex data and voice networks. PowerNet Systems evaluate, design and install the best integrated system that can support your company.

CCTV and Security System

From integrated CCTV systems, audio video door phone intercoms, RFID for access control solution to electronic gate barriers, we deliver the very latest secured technology for many different applications. Always at the forefront, PowerNet Systems supply, install and maintain security systems from small residential homes up to larger and diverse solutions.

- Copper Infrastructure Cabling Solutions.
- Cat 6A, Cat 5E, Cat 6 and Cat 7 Network Cabling.
- Fiber Optic Cabling Solutions.
- Low-voltage Cabling Solutions.

- CCTV and Surveillance systems
- Public Addressing systems
- Asset Tagging, Bar-Coding and Control
- Audio / Video Intercom Systems
- Scanners

Networking Solutions

PowerNet Systems offer comprehensive network Design, Installation, and Optimization services for your Local Area Network (LAN), Wide Area Network (WAN), Servers, Workstations, Cabling, Voice/VoIP, Data, and Video systems.

PowerNet Systems will design, deploy, maintain, manage and secure large - and small-scale public and private networks, providing scalable integration and support solutions to network owners that are cost effective.

PABX/PBX Telephone Systems

PowerNet Systems provides your enterprise with a flexible, powerful and advanced phone system with features that will streamline your business communication, improve your customer relations, control communication expenses and above all increase business productivity.

PowerNet Systems provides installations, upgrades and maintenance services for PABX/PBX Telephony and PABX/PBX phone systems using VOIP. We also offer products, such as PABX/PBX Telephone Systems, PABX/PBX Phones, VoIP Gateways, and Memory Cards.

PowerNet Systems

Software Solutions

PowerNet Systems offer complete end-to-end software solutions in the most advanced technology using the latest industry standard tools. We build both application based solutions and web based solutions. Our website and web- interface designs focus on user-friendliness, a professional and attractive appearance, and are built with your business goals in mind. We have a dedicated team of consultants for the business solutions, to make better strategic decisions, by addressing IT concerns and translating general and technical observations into specific recommendations for the business, thereby adding value and charting a proper return on investment.

Web Development

PowerNet Systems makes use of the latest in open source software solutions which enable our clients to easily manage and update their websites with unwanted complications or outside help, though we are there at their call end always. We develop websites in such a way that maintaining and projecting the site from the simple basic Home page to the highly complex full-blow booking engines becomes so easy to carry on its own. Our case studies show that most of our clients manage their websites without any prior knowledge in the IT field. PowerNet Systems tailor comprehensive packages in the simplest available form so that the clients and customers wield the web management with ease.

PowerNet Project Supply

Electrical & Electronic cable & connectors

Powernet offers an extensive selection of high-quality electrical and electronic cables and connectors, engineered for durability and exceptional performance. Perfect for a wide range of industries, our products provide reliable connections for power transmission, data communication, and beyond. Rely on our cables and connectors to deliver safe, efficient, and long-lasting solutions for all your electrical and electronic requirements.

Our wide selection of electrical and electronic cables and connectors guarantees secure, seamless connections for all your projects. Whether for industrial, commercial, or residential use, our products meet the highest standards of quality and performance. From power cables to data connectors, we offer durable solutions that promote efficient operations and long-term reliability. Trust us to provide the best cables and connectors for safe, effective system performance.

We also specialize in the repair and maintenance of electrical and electronic cables, ensuring they perform at their best and maintain safety standards. Our skilled technicians quickly diagnose and address issues such as wear, damage, or faulty connections. Whether for industrial or commercial applications, we offer reliable and cost-effective repair solutions to keep your systems running smoothly and minimize downtime.

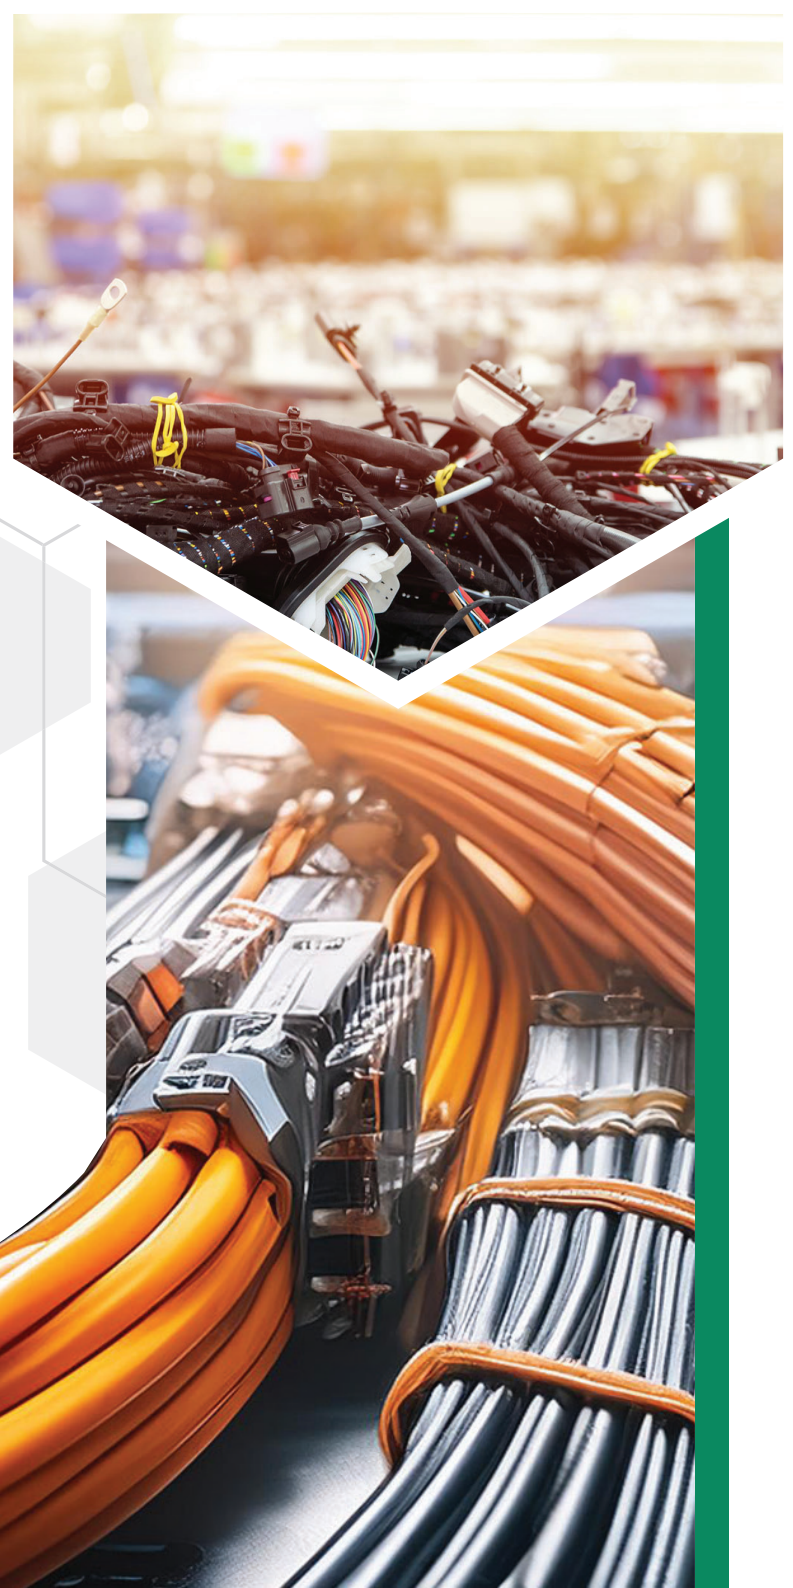

Electrical Harness Distribution

PowerNet offers top-tier electrical harness distribution solutions engineered to enhance your system's efficiency and organization. Our custom-designed wire harnesses ensure reliable power and signal distribution across a wide range of applications, from automotive to industrial machinery. Built with precision and durable materials, our electrical harnesses are crafted to improve performance, minimize errors, and simplify installation, providing a seamless solution for all your connectivity needs.

Our electrical harnesses are engineered for optimal performance, ensuring reliable power distribution and secure connections across a wide range of applications. Made with high-quality materials, they are ideal for automotive, industrial, and electronic systems. Trust our custom-designed solutions to provide efficient, organized, and durable wiring for your projects.

We also specialize in harnesses for engine, pump, and transmission applications, offering tailored solutions to meet the specific needs of these critical systems.

PowerNet Project Supply

Safety Solutions

We offer an extensive range of high-quality safety products designed to protect workers across various industries. From personal protective equipment (PPE) to safety tools and accessories, our products ensure maximum safety, compliance, and peace of mind. Rely on us to provide the essential safety gear that safeguards your team and supports smooth operations.

Our wide selection of Personal Protective Equipment (PPE) is tailored to ensure the safety and well-being of your workforce. Including durable helmets, gloves, masks, and safety suits, our PPE meets rigorous industry standards. With reliable protection for a variety of work environments, our products help reduce risks and foster a safer workplace.

PowerNet Maintenance

A/C Maintenance and Repairing

- Cleaning of filters.
- Servicing of AC units.
- Fixing all faults including thermostat, strainer, valve, fan and compressor issues.

Exterior Maintenance and Repair

- Water proofing.
- Exterior facade painting.
- Sanitary ware issues

Fixture of Light and Dimmers

- Ceiling and wall-mounted lighting.
- Dimmer installation.
- Outdoor façade and garden lighting.

Home Care Packages

All plumbing problems, including leaks, blocks and malfunctioning sanitary ware. Water heater and water pumps repair. All electrical switches, sockets and distribution board malfunctions to insure steady reliable electricity supply. Air conditioning units repair

Electrical Faults Repairing

- Distribution board and circuit breakers.
- Switches and socket malfunctions.

Plumbing Problems

- Water leaks
- Water pump repair and installations.
- Sanitary ware issues
- Water heater repair and installations.
- Blocked pipes

Interior Fit -out and Repair

- Flooring, including tiling marble, parquet & carpeting.
- Ceilings, including false ceilings.
- Room expansion, partitioning and wall paper.

Painting of Homes and Offices

- Indoor and Outdoor.
- Custom colors and finishes.
